Rules & Regulations

No-Nonsense pages 118 - 120

Control operator and control types: control operator required; eligibility; designation of control operator; privileges and duties; control point; local, automatic and remote control; location of control operator

An amateur radio station must always have a control operator who is responsible for the proper operation of that station. The default control operator is the station licensee.

T1E01

When may an amateur station transmit without a control operator?

- A. When using automatic control, such as in the case of a repeater
- B. When the station licensee is away and another licensed amateur is using the station
- C. When the transmitting station is an auxiliary station
- D. Never

T1E01

When may an amateur station transmit without a control operator?

- A. When using automatic control, such as in the case of a repeater
- B. When the station licensee is away and another licensed amateur is using the station
- C. When the transmitting station is an auxiliary station
- D. Never**

T1E11

Who does the FCC presume to be the control operator of an amateur station, unless documentation to the contrary is in the station records?

- A. The station custodian
- B. The third-party participant
- C. The person operating the station equipment
- D. The station licensee

T1E11

Who does the FCC presume to be the control operator of an amateur station, unless documentation to the contrary is in the station records?

- A. The station custodian
- B. The third-party participant
- C. The person operating the station equipment
- D. The station licensee**

T1E03

Who must designate the station control operator?

- A. The station licensee
- B. The FCC
- C. The frequency coordinator
- D. Any licensed operator

T1E03

Who must designate the station control operator?

- A. **The station licensee**
- B. The FCC
- C. The frequency coordinator
- D. Any licensed operator

T1E07

When the control operator is not the station licensee, who is responsible for the proper operation of the station?

- A. All licensed amateurs who are present at the operation
- B. Only the station licensee
- C. Only the control operator
- D. The control operator and the station licensee

T1E07

When the control operator is not the station licensee, who is responsible for the proper operation of the station?

- A. All licensed amateurs who are present at the operation
- B. Only the station licensee
- C. Only the control operator
- D. The control operator and the station licensee**

T1F10

Who is accountable if a repeater inadvertently retransmits communications that violate the FCC rules?

- A. The control operator of the originating station
- B. The control operator of the repeater
- C. The owner of the repeater
- D. Both the originating station and the repeater owner

T1F10

Who is accountable if a repeater inadvertently retransmits communications that violate the FCC rules?

- A. The control operator of the originating station
- B. The control operator of the repeater
- C. The owner of the repeater
- D. Both the originating station and the repeater owner

T1E06

When, under normal circumstances, may a Technician class licensee be the control operator of a station operating in an Amateur Extra Class band segment?

- A. At no time
- B. When designated as the control operator by an Amateur Extra Class licensee
- C. As part of a multi-operator contest team
- D. When using a club station whose trustee is an Amateur Extra class operator licensee

T1E06

When, under normal circumstances, may a Technician class licensee be the control operator of a station operating in an Amateur Extra Class band segment?

- A. At no time
- B. When designated as the control operator by an Amateur Extra Class licensee
- C. As part of a multi-operator contest team
- D. When using a club station whose trustee is an Amateur Extra class operator licensee

T1E02

Who may be the control operator of a station communicating through an amateur satellite or space station?

- A. Only an Amateur Extra Class operator
- B. A General class or higher licensee with a satellite operator certification
- C. Only an Amateur Extra Class operator who is also an AMSAT member
- D. Any amateur allowed to transmit on the satellite uplink frequency

T1E02

Who may be the control operator of a station communicating through an amateur satellite or space station?

- A. Only an Amateur Extra Class operator
- B. A General class or higher licensee with a satellite operator certification
- C. Only an Amateur Extra Class operator who is also an AMSAT member
- D. Any amateur allowed to transmit on the satellite uplink frequency**

T1E05

What is an amateur station's control point?

- A. The location of the station's transmitting antenna
- B. The location of the station's transmitting apparatus
- C. The location at which the control operator function is performed
- D. The mailing address of the station licensee

T1E05

What is an amateur station's control point?

- A. The location of the station's transmitting antenna
- B. The location of the station's transmitting apparatus
- C. The location at which the control operator function is performed**
- D. The mailing address of the station licensee

T1E10

Which of the following is an example of remote control as defined in Part 97?

- A. Repeater operation
- B. Operating the station over the internet
- C. Controlling a model aircraft, boat, or car by amateur radio
- D. All of these choices are correct

T1E10

Which of the following is an example of remote control as defined in Part 97?

- A. Repeater operation
- B. Operating the station over the internet**
- C. Controlling a model aircraft, boat, or car by amateur radio
- D. All of these choices are correct

T1E09

Which of the following are required for remote control operation?

- A. The control operator must be at the control point
- B. A control operator is required at all times
- C. The control operator must indirectly manipulate the controls
- D. All of these choices are correct

T1E09

Which of the following are required for remote control operation?

- A. The control operator must be at the control point
- B. A control operator is required at all times
- C. The control operator must indirectly manipulate the controls
- D. All of these choices are correct**

T1E08

Which of the following is an example of automatic control?

- A. Repeater operation
- B. Controlling a station over the internet
- C. Using a computer or other device to send CW automatically
- D. Using a computer or other device to identify automatically

RR5 Q11 of 11

FCC Tech 7/22 to 6/26
Control Operator

n2re.org/m-o-r-e-project

T1E08

Which of the following is an example of automatic control?

- A. Repeater operation**
- B. Controlling a station over the internet
- C. Using a computer or other device to send CW automatically
- D. Using a computer or other device to identify automatically

A non-profit initiative by the IEEE and ARDC to increase the numbers of youth (12-18) and non-males in Amateur Radio. Participants earn FCC licenses and receive free 2-way radios.
